

3. Replace cable (to discuss new or used cable or even rope)

Step 1 is needed now, step 2 and 3 should be projects for later this year (fall?)

John was 'authorized' to proceed with step 1 in near future

Amparo: Will advertise opportunity:

Find a local supplier willing to do:

Small amount of eves trough work urgently needed

1) stop drips around small canopy 2) Redo elbows on front downspouts

3) resolve water into Green Room in consultation with Bob & Gerry Moisan

4) put metal sheet on small canopy

Need ton consult Gary, but strongly recommend install a POST to protect small canopy

All: Let John know of any errors or omissions in above, we touched on many things...
